First Choice Agriquip Announcement

We are very pleased to announce that First Choice Agriquip has signed a letter of intent to purchase Bosman Agri Inc. Plans are in the works to merge the two companies in the next 30 days. The combined company will continue to operate out of our Listowel location.

Shawn Conley and his sales team of Jonathan Welch and Nathan Bell will be joined by Bosman's Mark Stam for Ontario hog equipment sales and Lance Routledge for Manitoba sales.

Installation technician Murray Epworth from Bosman's will join First Choice's Gerry den Toom, Wayne Henry and Murray Louttit to become an even stronger support for our customer service department.

Joel Koops of Bosman will assume the role as General Manager of our combined company once the transition is complete.

The continued support from our valued customers, suppliers and employees has been very encouraging and with this merger will position us to be a leader in the Ontario market.

First Choice is part of the Jolco Group of companies with two offices in Quebec and LBJ Farm Equipment located in Amherst, Nova Scotia.

We are very confident First Choice's success and reputation in the poultry sector coupled with Bosman's strength in the hog equipment industry will meet and surpass the challenges ahead.

Sincerely;

Claude Levesque  
President  
Jolco Équipements Inc.

Joel Koops  
General Manager  
BOSMAN Agri Inc
